Buffalo Soldiers Film Screening at the DuPont Historical Museum

The documentary film "Buffalo Soldiers: Fighting on Two Fronts" will be shown at Eagle's Pride Golf Course and followed by Q&A with filmmaker Dru Holley. "In 1866, six all-Black cavalry and infantry regiments were created after Congress passed the Army Organization Act. They came to be known as Buffalo Soldiers. The film explores the often contradictory role played by the Buffalo Soldiers throughout American history, with particular emphasis on the settling of the American West."

The film won the 2023 Public Media Award for Best Historical Documentary. The event is funded with grants from the Puyallup Tribe of Indians Charity Trust and the Nisqually Delta Association.

Recommended for ages 13 and up.

2024 License Renewal Information:

Rental housing business licenses for the City of DuPont need to be renewed for 2024. Licenses are renewed through our online portal, SmartGov: <https://ci-dupont-wa.smartgovcommunity.com/Public/Home>. Renewing is easy! Existing license holders can simply login to their SmartGov account and click the **Renew** button in the **My Applications** section. Renewals are due by **January 31, 2024**, so be sure to submit them soon to avoid late fees. We also recommend you add noreply@smartgovcommunity.com to your safe senders list and check your junk email folders.

SmartGov:

Are you looking to access SmartGov? Please visit the City's website, click on "How Do I..?" and "Access SmartGov". This will take you right to the portal.

Fall/Winter cleanup is slightly behind schedule, and with the recent winter storm additional leaves and tree limbs have been scattered throughout the city. Measures are in the works with BrightView to continue to get to areas hard hit by the storm and get the debris/limbs removed. Public Services staff is working hard to get it under control, but the freezing rain has added to the difficulty, and they are working through it. Thank you for your patience!

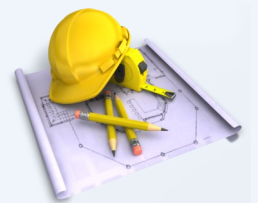

Did you know?... that development project materials are posted on the city's website to assist in staying informed and engaged of a new project or an ongoing project?

When an applicant submits project materials, these are placed on the City's website and can be located on the Planning Services page under Community Development: <https://www.dupontwa.gov/139/Active-Development-Projects>

Engineering update for on going projects:

- The City awarded the construction contract for the PFAS Treatment Facilities to McClure and Sons, Inc. for a total amount of \$7,301,440. Mobilization and utilities work at Hoffman Hills project site is in progress, and the project completion date is expected in late 2024.
- Center Drive Pavement Overlay Phase 6 project was completed in December 2023.
- HSIP "Highway Safety Improvement Program"- the City secured a Federal Grant for a total amount of \$539,000 for traffic and pedestrian safety improvements. WSDOT is currently reviewing the RFP.

Public Works Utilities & Operations update:

The PW Utilities & Operations Department is amid many accomplishments, but snow and ice are at the forefront.

Snow and Ice Operations:

Pre-Ice & Snow Event Preventative Action: Starts when crews apply a salt-brine solution to hills and primary access routes as a preventative measure to limit potential for ice to form and snow to stick on roads. Snowplowing starts on primary routes/hills when two or more inches of snow accumulate to minimize ice formation.

Ice Control: Sanding begins when icy conditions warrant application of traction assistance to the road surface. Sand/granular ice melt is generally applied only on hills, near intersections, or where requested by police to address specific problem areas. When a snow or ice event is in the forecast, and conditions allow, crews apply a salt-brine solution to hills and primary access routes as a preventative measure to limit the potential for ice to form on roads. Snowplowing starts on primary routes/hills when two or more inches of snow accumulate to minimize ice formation.

Snow Control: Public Works crews will focus on clearing snow from priority roads first, which include our main arterials, bus routes, designated emergency routes, and hills/steep slopes. We try to have all roads cleared as quickly as possible; however, the time required to address all primary and secondary routes will depend on the intensity of a given snowstorm event and how much snow or ice accumulates on the roadways. Crews are scheduled or called in to respond to a snowstorm event. All available trucks are put to work during adverse weather conditions.

More Info: [Snow-Removal-Info--Map \(dupontwa.gov\)](https://www.dupontwa.gov/snow-removal-info-map)

[Dupont Snow Plow \(youtube.com\)](https://www.youtube.com/watch?v=...)

Different Snowplow Cutting Edge:

Larry Clark, Public Works Supervisor for Utilities and Operations, would like to announce that he has a plan to implement (test) a different kind of snowplow cutting edge that should give crews the ability to cut through compacted snow and ice that they have struggled with in recent decades. He believes that if the results of the experimental cutting blades are as good as he expects, the difference in removal of compacted snow and ice should be noticeable to anyone driving city streets compared to previous years.

Stay tuned for future updates....

AUGUST 2023

I-5 - Mounts Rd. to Steilacoom-DuPont Rd. Corridor Improvements

Beginning in late summer 2023, contractor crews working for the Washington State Department of Transportation will begin construction on Interstate 5 in DuPont near Joint Base Lewis-McChord. This is the third in a series of projects that widens I-5 to add HOV lanes between DuPont and Lakewood.

Improvements coming to DuPont and JBLM

In addition to extending the I-5 HOV lanes, construction crews will make improvements that enhance mobility and safety in DuPont and near the JBLM DuPont Gate at exit 119, including:

- A new bridge spanning I-5 and the railroad. The new bridge will feature a partial Diverging Diamond Interchange and a shared-use path for pedestrians and bicyclists between JBLM and DuPont.
- Direct access between JBLM and both directions of I-5.
- A new roundabout connecting Steilacoom-DuPont Road and the new overpass.

The project will also add a new signal at the intersection of the southbound I-5 off-ramp at Mounts Road (exit 116) and improve the I-5 vertical clearance over Pendleton Avenue.

What you can expect

Construction will begin in summer 2023 and is expected to be complete in 2026. The project consists of multiple stages that involve overnight and weekend ramp closures, lane shifts onto temporary pavement, potential speed limit reductions, and bicycle and pedestrian detours. Crews will contain dust and debris to the construction site and will minimize noise as much as practical. Clear signage will indicate required detours throughout the project.

The project extends HOV lanes in both directions into DuPont.

Safety Message - Put a FREEZE on Winter Fires

Home fires occur more in winter than in any other season. As you stay cozy and warm this winter, be fire smart!

Half of all home heating fires occur in December, January and February.

Heating equipment is involved in **1 in every 6** home fires and **1 in every 5** home fire deaths.

Keep anything that can burn **at least 3 feet** from any heat source like fireplaces, wood stoves, radiators or space heaters.

Keep portable generators **outside, away from windows, and as far away** from your home as possible.

Install and test carbon monoxide alarms **at least once a month**.

Plug only **1 heat-producing appliance** (like a space heater) into an electrical outlet at a time.

Have a qualified professional clean and inspect your chimney and vents **every year**.

Store cooled ashes in a tightly covered metal container, and keep it **outside at least 10 feet** from your home and any nearby buildings.

For more information on how to prevent winter fires, visit usfa.fema.gov/winter and nfpa.org/winter.
